If, within said period of three (3) months, a decision has been made to initiate an investigation, the data will be kept outside the information system for the duration of the investigation of the facts. In the event that the investigation results in the adoption of certain measures against the persons investigated, the data will be kept as long as the appropriate legal actions persist.

If, after three (3) months, no investigation actions have been initiated (because no decision has been made as to whether to investigate or not, or if a decision has been made to investigate but investigations have not been initiated), the data must be erased from the information system, unless it is kept as evidence of the proper functioning of the system.
